

Mahindra launches eVerito, India's 1st Zero-Emission, All-Electric Sedan

Attractively priced at Rs 9.50 lacs (ex showroom Delhi, for D2 variant, post state subsidy and FAME incentive)**

SYNOPSIS

- Mahindra eVerito is the **1st electric sedan** from Mahindra which is built with Green, Connected, Convenient and Cost Effective vehicle technology.
- It can be **fast charged** in 1 hour 45 minutes (0-80%) and a full charge lasts 110 kms
- It is equipped with **Telematics** for remote diagnostics and monitoring vehicle performance
- **REVIVE – a global first feature** allows the eVerito enough charge to run an extra 8 km on the rare occasion of it running low on energy
- **Running cost of an eVerito is as low as Rs 1.15/km***
- Charging infrastructure widened and made **more accessible** under FAME
- Available in 3 variants

June 2, 2016, New Delhi: Mahindra Electric, the electric mobility division of the USD 17.8 billion Mahindra Group, today announced the launch of its innovative new eVerito - the all-electric, zero-emissions sedan. The eVerito would be available in key cities like New Delhi, Mumbai, Bangalore, Pune, Kolkata, Chandigarh, Hyderabad, Jaipur, and Nagpur with immediate effect. It will be priced at Rs. 9.50 lacs (ex showroom Delhi, for D2 variant, post state subsidy and FAME incentive).

Powered by the latest electric drivetrain technology from Mahindra Electric, the direct drive single speed transmission eVerito can be charged at home as well as quick charged in 1 hour and 45 minutes through fast charging technology. On a full charge, the Mahindra eVerito can travel for up to 110 kms (based on vehicle loading) and can achieve a top speed of 86 kmph.

Its **running cost is an incredible Rs 1.15/km***. The eVerito also features Boost Mode and Telematics which include real time and immediate assistance wherever the vehicle may be. The eVerito is an embodiment of Mahindra's vision of the 'Future of Mobility' which includes the framework of Green, Connected, Convenient and Cost Effective vehicle technology.

Speaking at the launch, **Mr. Pravin Shah, President and Chief (Automotive), Mahindra & Mahindra Ltd.** said, "As the pioneer of electric vehicles and integrated mobility solutions in India, it has always been our endeavor to make electric vehicles more accessible and the eVerito is the first electric sedan in our portfolio. With issues like environmental degradation, pollution-related challenges, climate change and energy security, there has never been a better time to switch to electric vehicles."

** Insurance, Road Tax, RTO registration charges extra as applicable

*Considering cost of electricity at Rs. 7 per unit, 18 units are required for one full charge

“Further, with the FAME scheme the Government has already set in motion a conducive environment and hence we can expect faster adoption of electric vehicles in the country. We also appreciate the local subsidy offered by the Delhi Government for electric cars and expect other states to follow it. Going forward we have laid out a clear roadmap for the electrification of our range of vehicles to reduce emission and build an eco-system for electric mobility in India, at par with its foreign counterparts,” **added Mr. Shah.**

According to **Arvind Mathew, Chief Executive Officer, Mahindra Electric.** “The eVerito is an innovative combination of advancements in automotive, electronics and information technology, paired with minimal running costs and zero tailpipe emissions. It is the perfect family car for intra city use. I also truly believe that each of us is responsible in our own way for being more sensitive toward the environment and should embrace new technologies that are green and sustainable. I am confident that India will make that paradigm shift in lifestyles - towards electric mobility solutions that are driven by progressive Government policies.”

The eVerito will be available in 3 variants and is built to high standards of safety and reliability. It can be the preferred option for consumers looking to switch to clean, smart and economical personal mobility solutions. The Mahindra eVerito can be purchased from select Mahindra dealerships in key cities including New Delhi, Mumbai, Bangalore, Pune, Kolkata, Chandigarh, Hyderabad, Jaipur, and Nagpur.

About Mahindra eVerito

GREEN TECHNOLOGY

- **Zero Emissions:** Being an electric vehicle, eVerito has zero tail pipe emission, in fact it doesn't even have a tailpipe. This means unlike many alternate fuel vehicles including CNG or Hybrids, the eVerito is completely emission free.
- **Regenerative Braking:** Regenerative Braking is a highly efficient process that has been brought to India for the very first time by Mahindra Electric. It is a technology in which every time the brakes are applied, energy is recovered back into the motor, giving the vehicle an extra bit of charge, and in some cases a few extra kilometers of driving range.

CONNECTED

- **Telematics:** Telematics helps capture more than 190 vehicle performance parameters which enables remote monitoring and diagnostics. Customers receive monthly statistics on Charging Patterns, Distance Travelled, Co2 saved, ECO points earned, fuel saved, etc.
- **REVIVE:** Revive® is a first in the world feature by Mahindra Electric. On the rare occasion that the car runs low on energy, Revive® can be activated to gain an extra **8 km** of range, to help the user reach home or the nearest charging station.
- **Intelligent Energy Management System:** The IEMS in eVerito calculates SOC (Status of Charge) and Distance to Empty, ensures optimum range, monitors battery voltage, current temperature and communicates with the Telematics gateway to create an external interface.

** Insurance, Road Tax, RTO registration charges extra as applicable

*Considering cost of electricity at Rs. 7 per unit, 18 units are required for one full charge

CONVENIENT

- **Direct Drive Single Speed:** The direct drive transmission eliminates the clutch and gives driving convenience that is similar to an automatic transmission vehicle. Now cruise through bumper to bumper traffic effortlessly.
- **Home charging:** Charging at home is as simple as charging a mobile phone. Plug it into a 15 Amp plug point and get 0-100% charge in just 8 hours, 45 min*.
*Battery temp 25°C +/- 2°C

Fast charging: For those extended journeys, the eVerito is specially designed for Fast Charging. Get 0-80% charge in approximately 1 hour and 45 minutes*, at one of the Mahindra Electric Fast Charging stations. *Battery temp 25°C +/- 2°C

- **Hill hold:** A unique feature which prevents the car from rolling backwards on an incline.

COST EFFECTIVE

- **Low running costs:** The eVerito gives you freedom from fluctuating fuel costs. The running cost of a eVerito is as low as Rs 1.15/km*
*Considering cost of electricity Rs 7/unit. The car needs 18 units for full charge, and has a range of 110km.
- **Lithium ion batteries:** The eVerito comes with a 72V battery pack of long life, maintenance-free Lithium-ion batteries.
- **Forward/ Boost mode:** The eVerito is equipped with a Boost mode for extra power.
- **Low Maintenance:** With no engine or clutch the eVerito has a fewer number of moving parts and as a result has lower maintenance costs.

About Mahindra

The Mahindra Group focuses on enabling people to rise through solutions that power mobility, drive rural prosperity, enhance urban lifestyles and increase business efficiency.

A USD 17.8 billion multinational group based in Mumbai, India, Mahindra provides employment opportunities to over 200,000 people in over 100 countries. Mahindra operates in the key industries that drive economic growth, enjoying a leadership position in tractors, utility vehicles, information technology, financial services and vacation ownership. In addition, Mahindra enjoys a strong presence in the agribusiness, aerospace, components, consulting services, defence, energy, industrial equipment, logistics, real estate, retail, steel, commercial vehicles and two wheeler industries.

In 2015, Mahindra & Mahindra was recognized as the Best Company for CSR in India in a study by the Economic Times. In 2014, Mahindra featured on the Forbes Global 2000, a comprehensive listing of the world's largest, most powerful public companies, as measured by revenue, profit, assets and market value. The Mahindra Group also received the Financial Times 'Boldness in Business' Award in the 'Emerging Markets' category in 2013.
